

Totally Pampered

Choosing a salon is an important part of the wedding planning process. After all, it's the place where you will spend the first few hours of your wedding day. Wouldn't it be wonderful to begin your day in a warm, friendly place with people who genuinely want to be there for you?

This is what you can expect to find at Totally Pampered, a salon, spa, and boutique in Eau Claire.

A SALON WITH HEART

Totally Pampered has everything a bride needs to feel truly pampered: caring stylists, exceptional services, and an intimate atmosphere. Owner Lori Lubeck opened Totally Pampered in 2007 with a vision to be stylish and modern, while remaining a welcoming place where stylists could develop friendships with their clients. Mission accomplished: at Totally Pampered, you do not have to sacrifice style for a friendly face. The stylists are genuine and down-to-earth, yet incredibly talented.

"I want to make people feel as if they are coming to my home," says Lori who provides many comforts of home including a relaxing setting and complimentary snack bar and beverages.

The interior of the salon is cozy, warmly lit, and creatively decorated with animal print-covered antique chairs, ornate gold mirrors, and an adorable animal-print wall

treatment. The salon is very private with individually-decorated rooms for hair, pedicures, massage, waxing, and facials.

"I chose this location because this building provides privacy and separate areas for each of our services," says Lori. "The quaint size creates an intimate, quiet atmosphere that so many people are looking for in a salon."

Lori has been a stylist for nearly 30 years and was the owner of a salon in Minnesota prior to moving to Wisconsin. She has also studied with the best of the best, including Graham Webb, an infamous hairdresser and creator of the Back to Basics hair, body, and cosmetics line. Lori worked along with Webb and ten other lucky stylists in England, visiting high-end salons and learning classic and trendy hair cutting techniques. All Totally Pampered stylists continue to stay on top of their game by taking classes each year.

SPA SERVICES... FOR LADIES AND MEN

Pampering isn't just for ladies; you are encouraged to involve your groom in the experience. The salon provides a private, gender-neutral atmosphere to make any guest feel at ease. This is exactly what brides and grooms need during the stressful wedding planning process.

"Our smaller salon appeals to men who don't want to be getting spa services in a room full of ladies," says Lori. "Guys, too, deserve to feel and look their best for their wedding, or any day for that matter."

Wedding day pampering should not begin on the day of the wedding. Totally Pampered has a range of other services, including manicures, pedicures, makeup application, massage, facials, body polishing, waxing, hair styling and more, to ensure you look polished from head to toe.

PAMPERED PARTIES

While many salons are bustling with customers and stylists, Totally Pampered provides individualized service without noisy distractions. The only noise you'll find at Totally Pampered is the laughter and conversation from your bridal party on your wedding day!

Special attention is given to the bride, of course. Totally Pampered provides brides with several complimentary services, including a consultation, a practice up-do with the veil and headpiece, and a one-minute manicure (an exfoliation scrub that will leave your hands softer than ever).

On the day of the wedding, a complimentary breakfast or lunch buffet is provided, including items such as bagels, muffins, fresh fruit, cheese and crackers, mimosas, and more.

Plus, the bride and her party receive 15% off three or more services received during the week of the wedding. Lori makes sure that every customer walks out of the salon feeling beautiful: "Before I begin styling hair, I always make sure that the customer knows that she can tell me if she feels that even one hair is out of place. In fact, I always ask the bride to tell me if one of her bridesmaids is unhappy because I understand that some people may be more comfortable telling a friend than the stylist."

Totally Pampered puts the "party" in bridal party. True to the salon's name, Totally Pampered knows how to pamper the bride, groom, and their wedding party. However, Lori knows that this business is about more than making others look and feel good. It's about creating a comfortable, fun environment where customers are relaxed, rejuvenated... and of course, having fun along the way!
